PARENTAL CONSENT TO ADMINISTER MEDICINE

Medication shall only be administered by St. Alban's Pre-School personnel upon my written request and will only be that prescribed by a physician. When I authorize St. Alban's Pre-School personnel to administer medication to my child during school hours, I hereby absolve St. Alban's Pre-School from any responsibility for any ill effects that may occur from the administration of such medication.

PARENTAL CONSENT FOR EMERGENCY TREATMENT

I hereby authorize St. Alban's Pre-School to call an emergency ambulance in case of accident or acute illness, and to allow possible emergency care if I am not immediately available. In the case of an emergency, if I and/or my physician cannot be reached, I hereby authorize the Administrator/Director of St. Alban's Pre-School to provide any necessary medical treatment. It is understood that I will be advised of the nature and extent of such treatment.

CONCERNING IMMUNIZATION OF PUPILS

In accordance with regulations established by the New Jersey Department of Health, effective September 1, 1975, all pupils one year of age or older, attending public or private school in New Jersey, are required to be immunized against six diseases listed of the Student's Health Evaluation form.

There are only two exceptions to this requirement:

- a. With a written statement signed by a licensed physician signifying that an immunization is medically contraindicated for a specified period of time and the reason why. This will exempt the pupil for that period of time. The school as part of the pupil's immunization record will keep all such physician statements.
- b. A written statement signed by a parent or guardian objecting to the immunization on the grounds that it interferes with the free exercise of the pupil's religious rights. The school as part of the pupil's immunization record will keep this statement. (NOTE: This exemption may be suspended by the State Committee of Health during an emergency, as determined by said Committee of Health.)
