

# Visual-Spatial Learner Forum

**Thursday, February 5th  
7:00 p.m.**

**Sacandaga Elementary Library**  
Child care will be provided by National Honor Society Students

**This forum will discuss the characteristics of visual-spatial learners, parenting strategies, and how we can help them be successful in the classroom.**

**Speakers will include:**

Becki Ayers, sixth grade ELA/Social Studies teacher  
Christine McKenna, parent  
Jan Tunison, High School Librarian

---

Visual learners are students who remember what they see, and often forget what they hear. They often get “the big picture,” but miss the details, can be excellent problem and puzzle solvers, yet might struggle with organizational skills and sequential tasks. As a result, they present unique challenges to their parents and teachers.

**Unsure if this forum relates to your child? Take the Short Quiz below:**

## **Short Quiz**\_\_\_\_\_

- Does your child struggle with spelling?
- Does your child have a vivid imagination?
- Do others think your child is unorganized?
- Is your child good at solving puzzles or mazes?
- Does your child love music, dance, art or drama?
- Does your child solve problems in unusual ways?

If you answered yes to more than three of these questions  
logon to [www.visualspatial.com/parents.htm](http://www.visualspatial.com/parents.htm)  
to view the entire visual-spatial quiz.

**Join S.P.A.C.E. and members of the Scotia-Glenville Central School staff for information on teaching and parenting your visual-spatial student on February 5, 2009 at 7:00 p.m. in the Sacandaga Elementary Library.**
